Housing Options

SHARED FLATS WITH STUDENTS

This is usually a house in which each room is rented only to college students or single young professionals. It usually has some House rules and a specific smoking area.

No kids and pets allowed. No parties or visits permitted in some of them and you will be in charge of your own laundry and cleaning service of your room.

This option will give you the opportunity to meet new people.

FURNISHED APARTMENTS

This option gives the student more freedom to go around his own house, usually created only for one person or a couple. Some basic rules about house care.

ROOMS IN FAMILY FLATS

This option is good for those students who like to share the space with Colombian people and learn more about the culture. It can be possible to have pets and kids around and students must follow the house rules. In some of these options, the apartment is shared only with one person, other options might include living with elderly people.

In almost all the options you will be required to pay for a percentage to book the space for you. You will also be required to pay for a damage deposit.
